

The big banks got bailed out, now bail out the American people.

Congress gave away our money, now Congress can take it back by passing the National Emergency Employment Defense Act of 2011, HR 2990.

How to Bail Out the American People

The National Emergency Employment Defense Act of 2011 makes it possible to send a \$5,000 tax-free check to every American citizen to help end this recession. It also provides plenty of jobs. First, millions of good paying jobs will be created because the National Emergency Employment Defense Act of 2011 enables the rebuilding of our badly decayed public infrastructure: Schools, roads, bridges, mass transit, water and sewage plants, etc. Second, by making it possible for the federal government to become the employer of last resort by providing jobs at a living wage, with full health care benefits, for all who are unable to find work in the private sector. Never again will anyone who wants or needs work be denied a job.

Both call and write your two U. S. Senators and your Congressional Representative and ask them to support the National Emergency Employment Defense Act of 2011.

Note: The back side of this Handout is now blank (except for this message), but we recommend you use the back to list the names, addresses and phone numbers of your local area U. S. Senators and your Congressional Representative.

This would make it very easy for those who receive this Handout to both phone and write their members of Congress.
